

## REGISTERED ARCHITECT

At **Design Partners** we make meaningful spaces that inspire through the medium of architecture and the built environment. We believe the spaces we inhabit should inspire people to become better, to learn, to grow, to reflect, to breathe deeply and to pause. Be inspired to go to school and learn, to go home and enjoy relaxing, entertaining and being with your family and to go to work and enjoy what you do, all by enjoying where you are. We do this by listening to our clients, understanding their goals and visions and helping them to realise these dreams as well as adding a little bit of flair. We currently work in the environments of living, working and education and are hoping to expand into health, wellbeing and public environments.

The spaces we inhabit have an influence on how we feel, our mood, our energy levels, our health, and how we interact and interpret the world and so we focus on making meaningful spaces that inspire. Spaces that work with (not against) the natural environment, spaces that are elegant and simple, spaces that are free from toxic materials, spaces that make sense and spaces that blend into the background and allow you to make sense of the world.

Our vision is to partner with our clients, our consultants and our environment to make inspired and inspirational spaces that improve the lives of everyone that inhabits the space temporarily or permanently.

Your contribution at **Design Partners** will be working with, and helping the Principal manage, the design team as well as taking a lead role on projects for design and delivery across a variety of industry sectors. You will be delivering projects and working closely with clients to help them realise their dreams and making their spaces truly inspiring and meaningful, aligned with our architectural vision above.

What you need to bring to the role at **Design Partners** is a passion for architecture and clever design thinking. You will need to be a 360 degree architect, an all-rounder, with clear communication and exceptional design skills at the front end and exceptional detailing skills and site experience at the other. You will need to have a track record in successfully delivering multiple projects within tight industry timeframes and budgets. Calm under pressure and professional in all your communications and dealings with project teams. You need to be up-to-date with building codes, contracts, Health and Safety in Design, and the plethora of paperwork that is required to achieve and deliver meaningful design.

We are looking for a NZ Registered Architect, 8+ years experience with these skills to help us deliver meaningful architecture to our clients and to help with the growth of our business. Experience in the education and residential density sectors and experience in using ArchiCAD for BIM delivery is essential, we need you to hit the ground running.

If the description of what we do at **Design Partners** inspires you to apply then we await your CV and Portfolio. We look forward to meeting you and to provide you with the career opportunity you have been seeking.

Seize the opportunity and email your cover letter, CV and portfolio to [marg.heeney@designpartners.co.nz](mailto:marg.heeney@designpartners.co.nz)  
**You must be eligible to work in NZ to apply**
